

Genelec & Memphis Reigns (Ft. Gamma Ray) – Anarchist Cookbook

[Intro]

Genelec

Memphis Reigns

Clarity of a Terrorist

Presidential

[Verse 1: Genelec]

Yo, I exist as an independent entity

Governments possess no knowledge of this identity

Operation Power Chancer

Under investigation for the distribution of treasonous propaganda

Binary 80 and Steel Panther

Seven continents my feet have roamed

Instantly command everyone of them, overthrow

Rebel activity's unknown, during massive electricity overload

I snuck into the hanger to download various march codes

[Two weeks later the Challenger explodes](#)

You didn't know about the NATO senate chamber?

I rearranged the data on the motherfucking label translators

Chaos creator, trained in criminology, geology and neural psychology

Intercepting Chinese technologies to leave Russian satellites blocked

Penetrated Fort Knox like it was guarded by [luggage locks](#)

Then target the leaders in North Korea

Took the fucking twilight camp to the Mona Lisa

Abused for World War III, proceed to sparkin'

Crashing American Stock Markets

Leave the whole world in disarray

By sending virus from the Y2K

(*Scratching*)

[Verse 2: Memphis Reigns]

Yo, I don't quit when I'm ahead

Stop when I say so, crews who get their peace like kids who're playing Legos

Super Agents who fly sky I play the lay low

Wanted internationally like Carmon San Diego

Master of disguise change face at any pace

Rendezvous at any place, no existence of my state

Renegades are paged crew stations and databases

Mortal hostile surrender are more than navy bases

United Nations know solutions to the infiltrations

Wanted by the Federal Bureau of Investigation

Patient with the force proceed I sign and crush ya

Advanced technological armor stolen from Russia

Super diabolical seeds a planet needs

Mutated by scientific labs and Japanese

For the purpose: Undercover, no sight of what I'm seeing

X-files delete, for the defeating of Europeans

Identity erased, unknown discovered weaponry

Blowin' up the SPOTS like heads on John Kennedy

(*airplane engine*)

"Let every nation know!"
